SALE ORDER

Cattle will sell in catalog order

HERD HEALTH

All bulls have been fertility inspected by a licensed veterinarian.
All bulls have been BVD tested and are negative.
All bulls have been P.A.P. Tested
All bulls will have all health requirements needed to travel.

RETAINED INTEREST

Paint Rock Angus Ranch retains 1/3 revenue sharing interest in each bull selling. Buyer has 100% possession and 100% salvage value.

DELIVERY

Free delivery on bulls to adjoining states. Arrangements will be made on delivery for purchases less than 5 head to non-adjoining states.

GUARANTEE

All bulls will be covered 50% by Paint Rock Angus Ranch if they are injured during their first breeding season and unable to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided. If a buyer prefers credit towards a bull in the following year's sale, 50% of the value of the injured bull, minus one-half salvage value will be given as credit. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2025.

TERMS AND CONDITIONS

This sale is being conducted under the suggested terms and conditions adopted by the American Angus Association, effective March 16, 1992.

Northern Livestock Bidding Instructions

For the Desktop:

1. It is best to use the Google Chrome web browser.
2. Pre-Register at least one day prior to the sale.
3. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

For the Mobile:

1. Use your mobile device to download the Northern App and follow the above steps to get approved.
2. There is an instructional video on how to register to bid on our website, www.northernlivestockvideo.com if you have any questions.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

Phone Bidding:

1. Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone.
2. To register with NLVA call 866-616-5035 Before Sale Day.
3. View the Online CATALOG and VIDEO CLIP of each bull selling at www.northernlivestockvideo.com.
4. Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

Northern Livestock's Sale Day Bid Line: 1-406-245-0889.

Welcome to our annual fall sale!

This is our 26th annual sale since we started the Paint Rock Angus production sale back up in 1998. It has been an honor and a privilege to serve our fellow cattlemen with seedstock that perform and have stood up to the test of time.

We are offering a great set of bulls that have been raised and developed in the high elevation, hard environmental pastures on the Big Horn Mountains of Wyoming. Many of these bulls offered are half and three-quarter brothers to aid in the production of uniformity in your calf crop. This year we are offering many of the breed's top sires along with sons we have raised out of these top sires for a broad selection on sale day.

As always, the bulls are wintered here at the ranch and delivered to you in the spring, ready to go to work, free of charge. We feel it is our duty to provide you with a bull in breeding condition, not overly or under finished. With that said, if at anytime there is a problem with your purchase, we will make it our first priority to make it right.

We look forward to seeing you sale day Tuesday, November 26th! If you can't make it in person, you have plenty of options for bidding. Northern Livestock and DVAuction will be broadcasting the sale live on sale day.

Thank you to our past customers for your continued trust and support in our program! Thank you to our new customers for seeking our program out!

The Paint Rock Crew

Top: Martin and Kelli with the grandkids (Martin holding Myles, Kelli holding Presley, Quincy, standing, Rhett, seated)
Middle, left: Royce, holding Presley, Skye, holding Rhett, Quincy, standing
Middle, right: Emma and Chance
Bottom, left: Myles
Bottom, middle: Asa, holding Myles, and Rachael

Bottom, right: Grandma Mary holding her sixth great-grandbaby

How blessed we are to do what we love with four generations working together!

ANGUS REFERENCE SIRES

Sires on this page are new to our breeding program this year!

A standout sire when it comes to having some vigor and coming with plenty of ease. These calves hit the ground running and have done nothing but grow. A sire that is packed full of phenotype and his females have done nothing but impress. We are looking forward to seeing how these females affect our cow base in the years to come.

These calves came super easy during calving and have done nothing but grow since they hit the ground. They may be a little later maturing but these calves are extremely good looking from any angle and are super sound off all four. Duke's calves have been very consistent throughout and add lots of volume, calving ease, and fertility while having an outcross pedigree as well.

Magnum has most definitely injected plenty of power and masculinity into his bull calves. Not only is he backed by nine pathfinders in his three-generation pedigree and offers unique mating flexibility, but his progeny demands attention. His bull and heifer calves have plenty of volume, power, calving ease, and still offer plenty of performance.

A calving ease herd bull with very sound calves and strong maternal traits that has been added to our program this year. We wish we had more of these bulls to offer, but are very excited to see how his daughters perform in our herd as there were way more females born to him than bulls!

This sire has been extremely compatible with our cow base. He injects plenty of power into the bull calves while still being very sound. Coalition stamps his calves with a big square hip and a super attractive design while still being good footed. Not only did they weigh up the heaviest of our set but the females are just as impressive as our bull calves.

* Lot 12 in our 2021 Fall Sale
* Sold for \$10,000 to Double JJ of Iowa
If you want calves that come easy and inject a ton of growth this is the sire group to look at. The sons and daughters out of this sire are all around good cattle. They have great fleshing ability and excel in being some of the stoutest, good footed, and are flat impressive. These bull calves this year have done nothing but get better all summer and are super docile.

We have used this sire heavily the last few years and love the docility, maternal abilities, and power that he has injected into our cow base. This sire is more on the moderate side but with that being said his progeny always tip the scales at weaning and pack so much power throughout. The females out of this sire have done nothing but impress, they are great mothers and have impeccable udder qualities. If you are looking for some maternal traits without sacrificing performance, Bulldogger is the answer.

Quick Reference to ASA EPDs and \$ Indexes

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org. Listed below are the units ASA EPDs are expressed in:

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)

Back Fat (BF): Inches of backfat.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Marbling score.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Warner-Bratzler Shear Force (WBSF): Pounds of force required to shear a steak.

Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score.

**AMERICAN SIMMENTAL ASSOCIATION
 "HYBRID" SIMANGUS EPD AVERAGES**

| CE | BW | WW | YW | MILK | API | TI |
|------|-----|-------|-------|------|--------|-------|
| 12.3 | .30 | 76.10 | 117.4 | 22.9 | 130.92 | 78.68 |

\$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes: **All-Purpose Index (API):** Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org.

* 1/2 Sim, 1/2 Angus

* Sold for \$5,500 in 2022 to Myles Bush

If you're wanting to add heterosis, power, and performance with the same maternal traits of a traditional angus female then take a serious look at the Sim-Angus bulls in this offering. Look to these bulls to throw some serious pounds and uniformity onto your steer calves, and keep all the replacements out of them.

M A R Pacifico 260, Sire

Our thoughts on the Pacifico Sire Group:

M A R Pacifico is a standout sire when it comes to having some vigor and coming with plenty of ease. These calves hit the ground running and have done nothing but grow. A sire that is packed full of phenotype and his females have done nothing but impress. We are looking forward to seeing how these females affect our cow base in the years to come.

This sale will be broadcast live on the internet.

PRA Motive 501, sire

Our thoughts on the Motive Sire Group:
 You will find this very influential sire in the pedigrees of a lot of our progeny. This bull and his sons have proven themselves time and time again. They are true calving ease, with gainability and these bulls cover the country to breed a cow!

U-2 Coalition 206C, sire

Our thoughts on the Coalition Sire Group:

This sire has been extremely compatible with our cow base. He injects plenty of power into the bull calves while still being very sound. Coalition stamps his calves with a big square hip and a super attractive design while still being good footed. Not only did they weigh up the heaviest of our set but the females are just as impressive as our bull calves.

Our thoughts on the Duke Sire Group:

These calves came super easy during calving and have done nothing but grow since they hit the ground. They may be a little later maturing but these calves are extremely good looking from any angle and are super sound off all four. Duke's calves have been very consistent throughout and add lots of volume, calving ease, and fertility while having an outcross pedigree as well.

Our thoughts on the Emblazon Sire Group
 If you want calves that come easy and inject a ton of growth this is the sire group to look at. The sons and daughters out of this sire are all around good cattle. They have great fleshing ability and excel in being some of the stoutest, good footed, and are flat impressive. These bull calves this year have done nothing but get better all summer and are super docile.

Our thoughts on the Magnum Sire Group:

Magnum has most definitely injected plenty of power and masculinity into his bull calves. Not only is he backed by nine pathfinders in his three-generation pedigree and offers unique mating flexibility, but his progeny demands attention. His bull and heifer calves have plenty of volume, power, calving ease, and still offer plenty of performance.

Lot 45

Our thoughts on the Double 07 Sire Group:
 Easy doing and easy feeding sums up the calves out of this sire. We have used this sire a lot the last few years and have been extremely happy with these cows and bulls. Deep sided, powerful, and good footed all while having the best disposition. Some of the best cows in our herd come from this line!

WINTERING AND DELIVERY:

As always you can expect bulls ready to perform when delivered in the spring! We pride ourselves on wintering these bulls on a high roughage ration in rocky pastures with appropriate bedding for the weather conditions. We know that a fat bull that has been laying on the frozen ground all winter won't be good for the customer or the producer so we take the extra time to make sure it's done right! In the spring we will deliver performing bulls straight to you and look forward to the visit!

Our thoughts on the Bulldogger Sire Group:

We have used this sire heavily the last few years and love the docility, maternal abilities, and power that he has injected into our cow base. This sire is more on the moderate side but with that being said his progeny always tip the scales at weaning and pack so much power throughout. The females out of this sire have done nothing but impress, they are great mothers and have impeccable udder qualities. If you are looking for some maternal traits without sacrificing performance, Bulldogger is the answer.

Lots 59 - 65 Sim Angus Bulls

Our thoughts on the Sim Angus Bulls

If you're wanting to add heterosis, power, and performance with the same maternal traits of a traditional angus female then take a serious look at the Sim-Angus bulls in this offering. Look to these bulls to throw some serious pounds and uniformity onto your steer calves, and keep all the replacements out of them.

Paintrock Trapper, sire

Our thoughts on the Trapper sons
 Another sire that you will see deep into the pedigrees of our cow base.
 These bulls have withstood the test of the Wyoming elements and are high altitude cattle for sure!

WINTERING AND DELIVERY:
 As always you can expect bulls ready to perform when delivered in the spring!
 We pride ourselves on wintering these bulls on a high roughage ration in rocky pastures with appropriate bedding for the weather conditions. We know that a fat bull that has been laying on the frozen ground all winter won't be good for the customer or the producer so we take the extra time to make sure it's done right! In the spring we will deliver performing bulls straight to you and look forward to the visit!

*The females out of Bulldogger are great mothers with impeccable udder qualities.
 If you are looking for maternal traits without sacrificing performance,
 Bulldogger is the answer.*

Easy doing and easy feeding sums up the calves out of Double 07.

They are deep sided, powerful, and good footed all while having the best disposition.

Some of the best cows in our herd come from this line.

Lot 183

*Lot 186 presents an opportunity that
doesn't come around very often.*

*His dam is an exceptional mother who
always brings home a huge calf.*

*He's big hiped and super moderate:
a solid commercial calf.*

*Do you have a few cows you are raising
show prospects out of?*

Does he have a place in your program?

Use Sim Angus bulls to add heterosis, power and performance with the same maternal traits of a traditional Angus female.

These bulls will put some serious pounds and uniformity into your steer calves while also making replacements that you will want to keep!

Sim Angus Bulls sell as Lots 59-65 and 187-193
